

Why normal people in smart cities cannot go back to a normal life

Below are seven reasons that normal humans cannot go back to a normal life. But first, we need to define what a normal human is. Currently, there are four types of people on earth based on their DNA:

1. **Normal unsaved humans** – people who still have the God-given double-stranded DNA that they inherited from their parents.
2. **Normal saved humans** – people who have regenerated double-stranded DNA that God supernaturally gave them when they were born again (John 3:3; 2 Corinthians 5:17)
3. **Synthetic humans** – people who have triple-stranded DNA, including chimeric DNA with Satan's genetic markers plus a third strand of dormant quantum dots that are ready to be activated. These people are indistinguishable from normal

humans, but they no longer have God-given DNA; after their third strand of DNA is activated, they will become humans robots (see world patent [WO 2020/076472](#)).

4. **Humanoids** – people who are hybrid offspring of humans and fallen angels (aka “aliens”) or the descendants of such people. These people are also normally indistinguishable from normal humans except that sometimes they exhibit odd characteristics, like snake-slit pupils in their eyes or other reptilian features that briefly manifest. Their DNA is said to include serpentine-like parasites of very small proportions. (See [Life as an Investigator is Like a Box of Chocolates](#).) It is alleged that many elite families and TV personalities have this kind of DNA.

In this paper, the first two groups of people are referred to as normal humans, and the third group is referred to as synthetic humans. Some people refer to them as “synths” or “robotic humans.” (See the 93-page patent, [Human-Robots: the New Specie](#).) The fourth

group is not discussed in this paper, but a good Biblical presentation is provided in another paper, [As were the days of Noah](#).

Normal humans cannot go back to a normal life unless they become synthetic humans; they are still eligible to be saved and go to Heaven if they repent of their sins, trust in the Lord Jesus Christ and do not become synths. The day is coming when normal humans will be scarcer than pure gold (Isaiah 13:12). Satan wants all normal people to become synthetic humans, but God will not allow that to happen (Matthew 24:22).

Synthetic humans cannot go back to being normal humans. They made an irreversible freewill choice. They are re-created in the image of the Beast and will worship the Beast (Revelation 13:4,12; 14:9,11). They must also receive continual upgrades, because their genomes are corrupted.

1. The judgment of God on a sinful world was foretold and will increase

The COVID situation is ultimately the judgment of God upon a sinful world to help people who fear him to turn from their sins, submit to Him and learn righteousness (Ezekiel 14:12-23; Isaiah 26:9,21; Amos 3:6). However, most people do not want to turn from their sin and learn righteousness, so expect more judgment, starting among professing Christians (1 Peter 4:17).

The Lord Jesus Christ described these times, stating that they will be like the labor pains of a pregnant woman; they will get more intense and closer together, and nothing in the Bible indicates the possibility of a Caesarean-section delivery (Matthew 24:8).

2. Demonic AI running on quantum computers is increasing the spread of evil

SARS-CoV-2 and related experimental injections and social engineering have been designed by artificial intelligence (AI) running on quantum computers. We cannot turn these computers off, so we can expect more bioweapons, more experimental injections, more lies, more fearmongering, more chaos, more social engineering, and more consolidation of power in the hands of a small group of evil people.

Social engineering causes people to follow a controlled narrative rather than use independent thinking and listen to the Spirit of God speaking through the Bible.

D-Wave is the largest quantum computer manufacturer in the world, and their founder says that D-Wave computers access millions of parallel dimensions to gain information resources. However,

discernment from God tells us that these parallel dimensions are evil spirits that give forbidden knowledge; therefore, we should expect the amount of evil in the world to keep increasing (Daniel 12:1,4; Matthew 24:12,21; 2 Timothy 3:13).

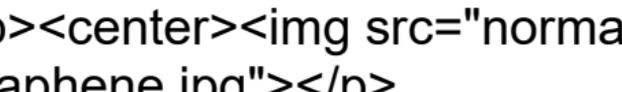

3. Big money is driving COVID-related technology and other recent technologies

An increasing number of technology and medical-related businesses are making big money from COVID, and they want more profits in the future.

Data scientists and people using AI algorithms always want more and better data.

Medical martial law and machine learning on big data from contact tracing apps and digital health passport apps are enabling authorities to gain more power and control.

Authorities' new ambition is surveillance under the skin through recently injected nano technologies. These technologies include billions of nano telecommunications and nano computing devices made of graphene-coated quantum dots.

The new surveillance under the skin includes coordinate and routing systems for nanonetworks in people's brains. This is based on the 2015 CORONA design. (See Ageliki Tsioliaridou et al., NANOCOM' 15, pp. 1–6, <https://doi.org/10.1145/2800795.2800809>.)

The president of the United States recently issued an executive order which mandates biotech being made a priority in all businesses. (See President Biden's [Executive Order on Advancing Biotechnology and Biomanufacturing Innovation for a Sustainable, Safe, and Secure American Bioeconomy](#).)

4. The new internet and global financial system will only be accessible to synthetic humans

COVID policies have slowed down the global economy. Central bank currency debasement is being done to keep economies running, but this is causing the prices of consumable products to go higher and higher. Eventually the fiat currency bubble and the derivatives bubble will pop, and this may be sooner than most people expect.

The World Economic Forum (WEF) and other thinktanks are promoting a Great Reset. Their goal is to discard the old financial system based on cash and promises and trust in people. They intend to replace it with a new cashless financial system based on blockchain technology and trust in technocrats, computer systems and AI.

Because many governments and individuals with debt cannot possibly repay their loans, they desire all their

debts to be cancelled. The Great Reset includes debt forgiveness. Synthetic humans may have all their debts forgiven, so they will be happy even though they own nothing.

The World Government Summit is planning for a world government run by technocrats and technology.

Technology companies are working extremely hard to replace Web 2.0 with Web 3.0, so the entire world can enjoy fast internet services through 5G/6G wireless communication in smart cities. Wireless technology is controlled by Satan, the prince of the power of the air (Ephesians 2:2), so the new financial system running on Web 3.0 will be totally controlled by Satan.

Because synthetic humans already have millions of nano telecommunications devices in the neurons of their brains, they will be able to enjoy 24/7 wireless connectivity to Web 3.0 and experience virtual reality in the Metaverse without having to wear VR headsets. They will

be given new memories and new cognitive abilities and be happy about it.

Normal humans who refuse delivery of nano devices will not be qualified for participation in the new blockchain financial system or Web 3.0. Only God can help them survive outside the smart cities.

Eventually, critical mass will be reached in countries around the world, and synthetic humans will turn against the normal humans in their smart cities. Therefore, it is wise for normal humans to move away from smart cities beforehand. Remember the Jews in Nazi Germany who were warned to leave but did not want to until it was too late.

5. War and geoengineering are leading to famine

The war in Ukraine and related sanctions are causing the prices of energy and fuel and fertilizer to go up, so this will affect the cost of living all over the world.

The war in Ukraine is disrupting the planting of crops and the exporting of grain, and some experts predict major food shortages around the world, especially in poor countries. Major food shortages typically lead to social unrest.

According to Russian leaders, Russia also wants to invade other countries.

There is talk of NATO helping Ukraine and China helping Russia. There is also talk of war between China and the US regarding Taiwan (Matthew 24:6,7; Revelation 6:3,4). Thus, we may see World War 3.

Earth's life support systems have been greatly harmed due to geoengineering (aka climate engineering). This is done through ionospheric heaters like the High Active Aural Research Project (HAARP).

The dropping of particulates (aka chemtrails) from airplanes to deflect sunlight has toxified the land below.

Therefore, the current global population is no longer sustainable under these circumstances (Revelation 6:5-8).

6. Health care systems are being transformed to include synthetic people and exclude normal people

Health care systems and insurance companies around the world are moving away from traditional medical treatment to gene therapy, which adds, deletes, or changes the order of base pair nucleotides in people's DNA, changing the original God-given blueprint and coded instructions. This turns people into synthetic humans.

Gene therapy is based on computer systems and artificial intelligence (AI) rather than human intelligence.

Insurance coverage and medical fee reimbursement will favour AI over human intelligence, so most doctors all over the world will be subservient to AI or else lose their jobs.

To qualify for many types of medical treatment, people will need to be synthetic humans.

Gene therapy requires delivery by injection with a hypodermic needle or application of a microneedle array patch. If normal people accept gene therapy, they will become synthetic humans.

7. God does not want His people to go back to a normal life; He wants them purified.

Do not be conformed to this world, but be transformed by the renewing of your mind, that you may prove what is that good and acceptable and perfect will of God. - Romans 12:2 NKJV

“Come out from among them and be separate, says the Lord. Do not touch what is unclean, and I will receive you. I will be a Father to you, and you shall be

My sons and daughters, says the Lord Almighty.” – 2 Corinthians 6:17,18 NKJV

Do not love the world or the things in the world. If anyone loves the world, the love of the Father is not in him. For all that is in the world—the lust of the flesh, the lust of the eyes, and the pride of life—is not of the Father but is of the world. And the world is passing away, and the lust of it; but he who does the will of God abides forever. – 1 John 2:15-17 NKJV

He has promised, saying, "Yet once more I shake not only the earth, but also heaven." Now this, "Yet once more," indicates the removal of those things that are being shaken, as of things that are made, that the things which cannot be shaken may remain. - Hebrews 12:26,27 NKJV
